

# BUILDING ENERGY STAR® HOMES

3 DATES 3 LOCATIONS  
ASHEVILLE • RALEIGH • WILMINGTON

## Advanced Energy is offering an exciting new class just for Builders!

Sponsored by:  
 **Progress Energy**

Attend this session on ENERGY STAR® Homes and learn what it takes to build to the ENERGY STAR® standards. This class will cover the benefits of the ENERGY STAR® for New Homes program and will dive into the building science based techniques necessary to build healthy, safe, affordable, durable, and energy efficient homes. This class is full of valuable information for builders of every size.

Even more, after the class, each builder that attends will be eligible for a voucher (valued up to \$400) for a Home Energy Rating from a NC based RESNET certified Home Energy Rater. This rating will help home builders better understand how their current home construction compares to the ENERGY STAR® standards.

### Topics Include:

- What is the ENERGY STAR® for New Homes Program? How does it work?
- Selling the value of ENERGY STAR® homes
- Building an ENERGY STAR high performance home

### About Advanced Energy

Advanced Energy is a Raleigh, N.C.-based non-profit committed to a future in which energy needs are met at reasonable costs and with the least negative consequences. The organization continues to work collaboratively to demonstrate that industry, government and non-profits can successfully work together to improve the environment and encourage the economy. For almost 30 years, Advanced Energy has created economic, environmental and societal benefits through innovative and market-based approaches to energy issues. For more information, visit [www.advancedenergy.org](http://www.advancedenergy.org).
